

Interlocal™ by GlobalSource Communications

Introducing **Interlocal**, GlobalSource's network of local POPs deployed in our gateway cities in the US and throughout Europe.

Interlocal VOIP Provider Benefits

- Provide virtual phone numbers in Europe for your customers in the US and Worldwide.
- Generate additional monthly revenue from your current subscribers.
- Differentiate your broadband phone offering.
- Worldlocal service: we expand our network to include locations you need for your business.
- Launch services in Europe based on European phone numbers.
- Help your subscribers break into new markets with virtual office numbers abroad.
- We route incoming calls to your subscribers based on your requirements.
- We provide professional 24/7 network monitoring
- Flat-fee and per minute pricing available
- We can provide low-cost local call completion in our gateway countries

To discuss an Interlocal solution that will benefit your telephony business, please contact us.
