

GlobalSource Value Added Services

GlobalSource has extensive experience in providing customized value added solutions to our customers throughout the world.

With GlobalSource Value Added Services you are able to increase your revenues and ARPU leveraging your existing customer base.

By offering your customers a wide variety of value added services you have a competitive advantage creating customer loyalty, and helping you establish a long term relationship with your customer.

VOIP Retail Services

Are you looking to launch your own virtual carrier utilizing web-based VOIP service? Do you have customers who want to take advantage of the low cost of high quality VOIP for their inbound and outbound traffic?

We offer a complete custom-built solution for managing VoIP retail businesses. Our platform includes billing and accounting features customized to your needs. This enables you to work as a private label operator, using your own brand and offering your solution worldwide.

Local Phone Numbers in Europe and the US

- ▶ Private Labeling Available
- ▶ Billing and Accounting Solution
- ▶ Competitive VOIP Termination using SIP or H.323
- ▶ Interconnection with other major VOIP Companies
- ▶ Complete Billing Solution
- ▶ Our world-class NOC monitors the network
- ▶ Value Added Services for your customers
- ▶ 24/7 proactive NOC monitoring

Calling Card Services

Calling Card Solutions (private labeling)

As an independent calling card operator you need a telecom partner who can provide you with:

- ▶ Competitive Rates
- ▶ Card products tailor-made for your needs
- ▶ Customized corporate calling card
- ▶ Global Access
- ▶ Excellent Customer service
- ▶ Customized usage reporting
- ▶ Access to added value services
- ▶ Voice mailboxes
- ▶ Billing and Accounting services
- ▶ 24/7 proactive NOC monitoring

Our calling card platform supports advanced features, such as automatic card recharging, speed dialing and pinless verification. We also offer you economical Interlocal Local and Toll-Free access numbers to use for your calling cards!

Interlocal by GlobalSource

Interlocal is a value-added telephony service offering wholesale US and European numbers that give companies a virtual local presence. Interlocal numbers can be used for calling card local access, virtual numbers, and VOIP. Overseas callers simply dial a local number and the call is directed to you via TDM or high quality VOIP.

Interlocal Benefits

- ▶ Create **instant local presence** throughout Europe without investing in infrastructure
- ▶ Your end users around the World choose to add one or more European numbers to their account, giving you **additional monthly revenue on every account.**
- ▶ Offer **calling card access** from Europe for a fraction of the normal cost
- ▶ Useful for **Cellular Callers** in Europe where 800s are often blocked (or expensive when available)
- ▶ Launch **broadband phone service in Europe** based on our European phone numbers.
- ▶ We provide professional Network Monitoring 24/7

When used together with our TeleVSAT Solution, Interlocal provides local phone numbers in Europe and North America that ring to your VSAT-connected phones anywhere.
