

GlobalSource Carrier Business

GlobalSource Communications, is a leading wholesale traffic carriers for origination and termination of international VOIP, TDM and SS7 traffic. We operate in various markets through our highly developed satellite and fiber network utilizing our state-of-the-art VOIP and TDM technology.

We offer attractive pricing on high quality routes to various destinations through our wholesale A-Z service via our network of direct termination partners. We partner with local entities worldwide who can provide us additional quality termination routes to add to our global offering.

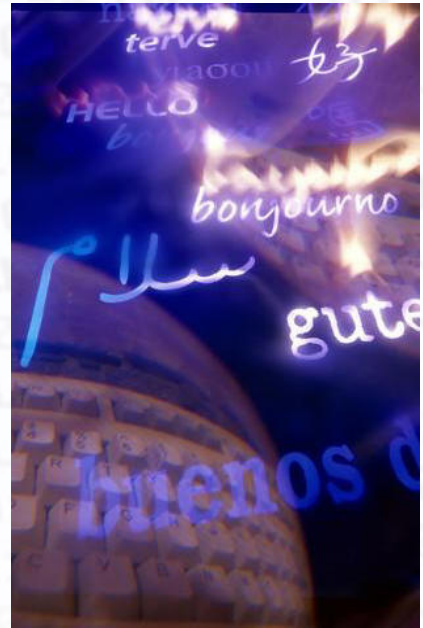

GlobalSource supports a variety of TDM and VOIP protocols, and our operations staff are familiar and experienced with equipment from leading vendors like Cisco, Lucent, Clarent, Quintum, etc. etc. In addition GlobalSource Operates an advanced softswitch, with H.323 and SIP interworking.

The GlobalSource NOC (Network operations Centre) monitors our network on a 24/7 basis. This includes each channel for every route to every destination measuring ASR, PDD, and other critical quality parameters.

International Wholesale Carrier Termination

In the world of telecom providers you need a termination partner who gives you more.

- ▶ More of the routes you need
- ▶ Experienced technical and customer support staff
- ▶ Personal Attention
- ▶ Timely technical assistance
- ▶ Dependable quality
- ▶ Better pricing

Origination Partnerships

If you have a large volume of voice minutes that need to be terminated we can help! Our worldwide network offers solutions for small, medium and large sized telecom providers. Our services include TDM, VOIP, and Satellite solutions.
